

Friday, April 19th 2013

To Cornerstone Management,

I have been meaning to write this letter to you for some time. If I have not done so until now, it is because I was told a few days ago that my son, who is in a highly abusive foster home, has a life-threatening condition (one of his kidneys is totally damaged), and I have been doing vital activist work, trying to expose what is really happening to him on a computer which is being severely hacked.

I am writing this letter to you, because even though I have had the rents for the months of March and April 2013 since April 10th, it was my initial desire to write a letter to give to you along with the money, in order to clarify this important issue.

In the past you have pressured me to give you the rent money by a certain time, when you are surely overly acquainted with my dire situation, and indeed you have even aided in the bringing about of my current situation.

My husband cruelly abandoned me with trickery, and your staff seriously overstepped its proper boundaries with regard to their administrative duties, by not only speedily facilitating my husband with an apartment of his own (in order for him to more easily conduct his adulterous affair with a promiscuous woman that he has), but have even aided the DCYF/CPS agency in conspiring to keep my own husband's address a secret from me, when you have no right to do so, as aiding CPS agencies to keep a husband and wife separated are not within the permitted and acceptable sphere of what would truly constitute your legitimate and lawful administrative duties of these subsidized building complexes. The sad truth is that your staff has seriously gotten out of line, and has disastrously overstepped their administrative duties, by engaging in actions which are not a lawful and acceptable part of those duties.

You know my husband's bank account information, and knowing how your management staff has also played their part in unlawfully bringing about my lamentable situation, instead of bullying me and threatening me with lawyers through letters, for a measly \$25 a month, you can easily charge it to my deadbeat husband.

After all, if my husband would not have broken the law and used fraud, lies, and trickery to illegally deprive me of my legal right to alimony as his spouse, you would not have to be sending me all those letters.

However, my inability to pay on time the \$25 rent each month is inevitably tied to the numerous abuses and injustices which have been intentionally and unlawfully inflicted upon me by those who hate me, and by those who have accepted money and bribes to do harm to me. Furthermore, I have made some attempts to obtain employment after my husband abandoned me, but because of my highly unusual situation with the DCYF/CPS agencies who have destroyed my family, I know without doubt that they are exerting their influence behind closed doors to prevent me from obtaining employment and so keep me impoverished.

Surely if you tell my husband, who has illegally and immorally robbed me of my legal right to alimony, to pay the \$25 he will comply.

If you do not fulfill this reasonable request then one can only deduce that there are perhaps unspoken motives which are more significant than the timely monthly collection of the rent that is due.

I hope that reason and ethics will finally prevail, and that Justice will be done in this matter.

Sincerely,

**Mrs. Cibeles Gonzalez (Tenant)
8 George St. Apt 33**
